

Enough!

Minnesota State Letter

If you had an uninterrupted thirty seconds with your MAGA friends and relatives, what would you say? I would say something like this: “Enough! Enough incompetence! Enough lying! Enough whining! Enough chaos! Enough of this cruel conman who will neither uphold the law nor keep us secure. Enough, already! Please come home. Come back to the home planet. We miss you.”

Such a speech might be highly satisfying, but probably not useful. Instead let’s devote our energies to protecting our democracy and defeating Donald Trump. [The Union](#) is one place to start. We gather volunteer opportunities from like-minded organizations with on-the-ground programs like voter registration, get-out-the-vote, postcard campaigns, canvassing and other tactics. Then we post them on the [Action Center](#).

Don’t confine yourself to just Minnesota. There are battleground states with a dire need to motivate and educate the independent and low engagement voters who will decide the election.

You might [check out the many postcard programs](#). Postcards are effective and can be done at your convenience (though if you’re feeling social you can also find “postcard parties”).

Thanks for being a volunteer with The Union. Let’s beat the cruel conman.
